

600um Large Core Fiber Patch Cable

- **Product Description**

Fiber optic patch cord (also known as fiber optic connector) refers to the installation of connector plugs at both ends of the optical fiber to achieve active connection of the optical path.

- **Product features**

Large core diameter: 600um、 Fiber optic connector

- **Part Number**

MP-MIR-600-037-SMA

● Application area

Fiber optic communication system、 Fiber optic access network、 Fiber optic data transmission、 Fiber optic sensor

● Core parameters

Core Diameter	Connector
600um	SMA/FC-SMA/FC

● General Parameters

Technical Parameters:

Parameter	Value
Fiber Type	HPCF600
Length	$L \leq 1m$ Tolerance: $\pm 10mm$
	$1m < L \leq 3m$ Tolerance: $\pm 15mm$
	$3m < L \leq 5m$ Tolerance: $\pm 30mm$
	$5m < L$ Tolerance: $\pm 30mm$
Connector Type	SMA/FC-SMA/FC
