

635nm 20mW T056 Laser Diode

- **Product Description**

Ridge Waveguide Laser Diode for 635nm Wavelength

- **Product features**

High visibility red light; Low operating current; Excellent beam quality;

Compact package; High reliability

- **Part Number**

MP-FP-635-20-T056

● Application area

Laser distance measurement and leveling instruments | Optical measurement and alignment systems | Biomedical and fluorescence excitation | Barcode scanning and data acquisition

● Core parameters

Package	Max. Current
T056	130mA

● General Parameters

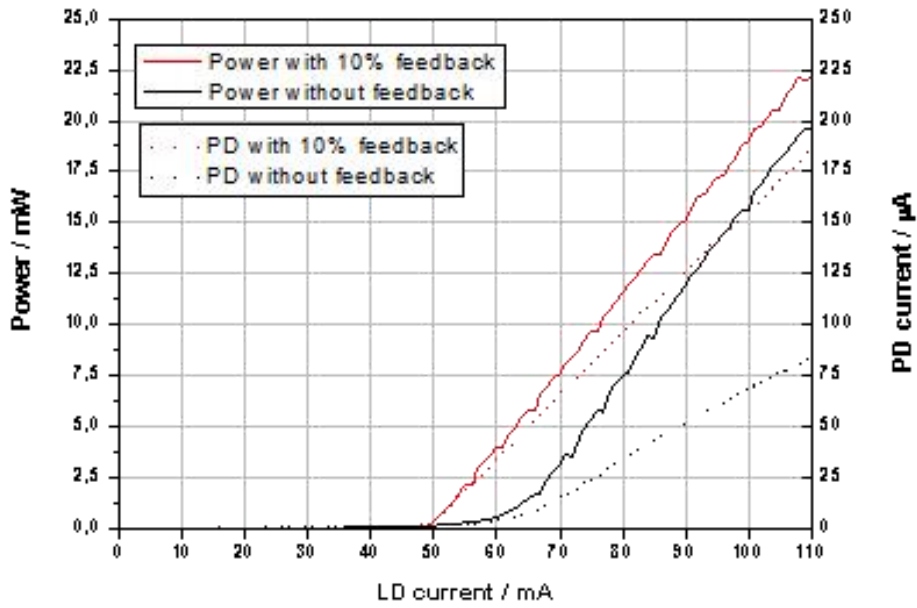

Detailed Parameters

Laser diode specific data

Package	T056
Maximum Current	130mA
Polarity	Negative
Temperature	22°C

L-I-V Curve

Spectrum
